

## **Harbingers of Spring**

*Tuesday, March 30, 2010*

12:00 to 1:30pm

Butler Library 208

Everyone familiar with Groundhog Day knows it is used as a colloquial barometer in determining the start of Spring. But in the *REAL* world, many other creatures are announcing the coming of Spring long before that poor woodchuck is yanked from his den! Come and discover the real signs of the Season which can make even January a much more hopeful month. To register go to:
